**BASIC FEATURES:**

- **Cross Platform**

- **64-User Queue**
  Up to 64 users can connect to the wePresent gateway making it a truly collaborative experience.

- **Quadrant Display**
  Allows users to project up to 4 devices onscreen at the same time, and wirelessly collaborate in real time.

- **1080p Resolution**
  With both an onboard VGA and HDMI video output, you can let classroom and conference room users wirelessly project in resolutions up to full 1080p.

- **Auto-detect Output Resolution**
  Auto-detect the output resolution of your display.

- **30fps**
  wePresent allows video mirroring at up to 30-frames-per-second for smooth video playback.

- **LAN Port**
  If wePresent is hardwired to your network, users can connect to your network as usual to wirelessly present and still maintain internet.

- **Touchscreen Control (Multi Touch)**
  Supports up to 6 separate finger-touch gestures on the touchscreen display.

- **USB Input Control**
  Use a Bluetooth mouse to play USB media files, control projecting computers, access teacher/moderator control or select users from the queue.

- **Customized Standby Screen**
  Completely customize the splash screen, so it's the first thing users see.

**FEATURES FOR: 2000**

- **Dual-Band Wireless Access Point (2.4GHz and 5GHz)**
  Broadcast an additional wireless SSID signal on either bandwidth, with full enterprise level encryption.

- **Onboard Video Streamer**
  Stream video files to the wePresent unit with full resolution and no latency.

- **USB Document Viewer/ Media Player**
  Plays any document, image, audio and video file directly from your personal USB.

- **1x4 Distribution**
  Projects one device to up-to 4 different wePresent displays.

- **OnScreen Annotation**
  During a presentation, write, draw and annotate on-screen using the built-in annotation overlay.

- **Interactive Whiteboard**
  With one click, switch the presentation to a white/blackboard environment for quick annotations.

- **USB Document Viewer/ Media Player**
  Plays any document, image, audio and video file directly from your personal USB.

- **Power Over Ethernet**
  Power the wePresent units by ethernet cable.
